Professional Summary

Full Stack Engineer and Flutter Developer with 2+ years of experience building cross-platform mobile and web applications for 10,000+ combined active users. Proven expertise in Flutter, React, Node.js, and AWS DevOps, delivering real-time systems (Socket.io, Firebase) with sub-100ms sync latency and 99.9% uptime. Track record spans food delivery, ride-hailing, LMS, ERP, and AI-powered platforms — end-to-end, from architecture to Google Play Store deployment.

Key Achievements

- Shipped **8+ production apps** across Flutter, React, and Node.js — including a platform with **10,000+ active users** and another with **5,000+ downloads**.
- Engineered real-time systems achieving **sub-100ms Firebase sync latency** for 500+ concurrent users and **99.9% uptime** on AWS EC2.
- Built a **RAG-based AI chatbot** (Qdrant + Groq LLaMA 3.1) and a **WhatsApp Business automation SaaS** — bridging full-stack engineering with applied AI.

Technical Skills

- Mobile:** Flutter, Dart, Cross-Platform (Android/iOS/Web/Windows), BLoC, Provider, Offline-First (SQLite)
- Frontend & Web:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite
- Backend & Databases:** Node.js, Express.js, REST APIs, JWT, RBAC, Socket.io, PostgreSQL, MySQL, MongoDB, Firebase Firestore, Prisma ORM
- Cloud & DevOps:** AWS EC2, AWS S3, Docker, Nginx, CI/CD, Linux Admin, Firebase Hosting & FCM
- AI & Emerging Tech:** RAG Pipelines, Qdrant Vector DB, Groq LLaMA 3.1, SSE Streaming, Meta Business API, Google Maps API, Geofencing

Professional Experience

Full Stack Developer

Sep 2025 – Present

Dhigrowth, Coimbatore

- Architected **Judah Food Delivery**, a 3-app ecosystem (Customer, Partner, Vendor) using Flutter, Socket.io, and Google Maps API for live GPS tracking, cutting order fulfillment cycle time by **45%**.
- Built **Nest Pilot**, a hostel facility management SaaS, with Node.js, PostgreSQL, and Docker on AWS EC2, enabling zero-downtime releases.
- Configured AWS EC2 security groups and CI/CD pipelines across production services, maintaining **99.9% uptime** and cutting manual processing time by **40%**.

Flutter Developer

Jul 2024 – Sep 2025

Elanortech, Chennai

- Built **Virtual 2 Live**, an AI + VR 360° platform with Firebase and secure payments, reaching **5,000+ downloads**.
- Developed **Ovantica**, a re-commerce marketplace with Flutter, Firebase, and Google Maps API, scaling to **10,000+ active users**.
- Built **lalassa**, a veterinary and pet care booking app with secure payments and appointment scheduling.
- Managed Docker containerized deployments with Nginx reverse proxy on AWS EC2, reducing server configuration time by **50%**.

Freelance / Independent Developer

Jun 2023 – Jun 2024

Coimbatore & Karur

- Built **Premium Parts ERP** with SQLite offline-first sync, geo-fenced attendance, and payroll for auto parts distributors.
- Delivered **Mayiliragu Academy LMS** (React admin panel + Flutter app + Node.js on AWS EC2), scaling to **1,000+ concurrent learners**.

Top Projects

- Ovantica** – Re-commerce marketplace app. *Flutter, Firebase, Google Maps API, Node.js*. **10,000+ active users**.
- Virtual 2 Live** – AI + VR 360° immersive platform. *Flutter, Firebase, AI Integration*. **5,000+ downloads**.
- Mayiliragu Academy LMS** – Full-stack LMS with video streaming & exam engine. *Flutter, React, Node.js, PostgreSQL, AWS EC2, Docker*. **1,000+ concurrent learners**.
- Judah Food Delivery** – Real-time 3-app delivery ecosystem. *Flutter, Socket.io, Google Maps API, Node.js*. **45% faster** fulfillment.
- RAG Chatbot** – Retrieval-augmented AI chatbot. *Qdrant Vector DB, Groq LLaMA 3.1, SSE Streaming*. Real-time streaming UX.

Education

Bachelor of Technology – Information Technology

2020 – 2024

VSB Engineering College
