

SATHISH G

Flutter Developer | Mobile Application Developer | Full Stack Engineer

+91-7868031207 | sathishg.dev@gmail.com | Tamil Nadu, India | <https://sathish.qzz.io/>

PROFESSIONAL SUMMARY

Results-driven Flutter Developer and Full Stack Engineer with 2+ years of hands-on experience designing, developing, and deploying cross-platform mobile applications for Android, iOS, Web, and Windows. Proficient in Dart/Flutter, Firebase (Authentication, Firestore, Cloud Messaging), Node.js/Express REST APIs, and cloud infrastructure on AWS EC2 with Docker and Nginx. Proven track record of delivering scalable LMS platforms, business automation tools, and e-commerce ecosystems that solve real-world problems. Adept at end-to-end product development — from requirement gathering and UI/UX wireframing to CI/CD deployment and performance optimization.

TECHNICAL SKILLS

Mobile Development: Flutter (Android, iOS, Web, Windows), Dart, Flutter Widgets, State Management (Provider, BLoC)

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Tailwind CSS, Vite

Backend: Node.js, Express.js, REST API Design, Webhook Integration, JWT Authentication

Databases: Firebase Firestore, MySQL, MongoDB, PostgreSQL, SQLite, Prisma ORM

Cloud & DevOps: AWS EC2, Docker, Nginx, Linux Server Administration, Firebase Hosting, Firebase Cloud Messaging

Tools & Platforms: Git, GitHub, Android Studio, Postman, Google Drive API, Meta Business API, Google Maps API

PROFESSIONAL EXPERIENCE

Full Stack Developer | **Dhigrowth** | September 2025 – Present

- Developed and launched Flutter mobile applications targeting business automation and customer engagement workflows, reducing manual processing time by 40%.
- Integrated Firebase Authentication, Cloud Messaging (FCM), and Firestore, achieving real-time data synchronization with sub-100ms latency for 500+ concurrent users.
- Architected and configured AWS EC2 infrastructure, security groups, and CI/CD environment pipelines, ensuring 99.9% uptime for production services.
- Delivered cross-platform Flutter solutions supporting Android, iOS, and Web from a single codebase, reducing development cost by 35%.

Flutter Developer | **Elanotech** | July 2024 – September 2025

- Designed and built a robust LMS (Learning Management System) platform supporting video-based streaming workflows with Google Drive API integration, serving 1,000+ active students.
- Implemented advanced role-based access control (RBAC) and modular interactive exam engine, improving content security and user engagement by 60%.
- Managed Docker containerized deployment environments with Nginx reverse proxy, reducing server configuration time by 50% and enabling zero-downtime deployments.
- Optimized Flutter application performance by profiling and refactoring widget trees, reducing frame rendering time by 30% and memory footprint by 25%.

Freelance Flutter & Full Stack Developer | **Independent Client Engagements** | June 2023 – June 2024

- Built a WhatsApp Business messaging automation utility integrating official Meta Cloud/Business APIs, enabling clients to send 10,000+ bulk messages per campaign without account blocks.
- Designed and hosted 5+ bespoke web and mobile applications using Node.js, Express, React, MongoDB, and MySQL, delivering all projects within agreed timelines.
- Managed full project lifecycle — requirement gathering, wireframing, development, testing, and production deployment — for 8+ clients across retail, education, and service sectors.

KEY PROJECTS

Mayiliragu Academy LMS | Full Stack Developer |

- Built an end-to-end, cross-platform Learning Management System for competitive government exam aspirants using Flutter (mobile), React/TypeScript/Vite (admin web), and Node.js/Express (backend).
- Integrated Google Drive Streaming API for secure video delivery, Firebase Authentication for user management, and Prisma ORM with PostgreSQL for structured data management.
- Deployed backend services on AWS EC2 with Docker and Nginx, enabling horizontal scalability and supporting 1,000+ concurrent active learners.

Tech Stack: Flutter, React, TypeScript, Node.js, Express, Prisma, PostgreSQL, Firebase, JWT, Google Drive API, AWS, Docker, Nginx

WhatsApp Sender Automation | Full Stack Developer |

- Engineered a Flutter-based SaaS dashboard integrated with a Node.js webhook backend for high-throughput bulk messaging via official Meta Business APIs, eliminating manual messaging bottlenecks.
- Implemented message scheduling, campaign analytics, and contact management features, increasing client campaign reach by 200%.

Tech Stack: Flutter, Dart, Node.js, Express, Meta Business API, MongoDB, Webhooks

Akirava Retail & Admin Ecosystem | Flutter Developer & UI Architect |

- Designed and developed a multi-vendor retail ecosystem — Customer App, Vendor/Partner App, and Admin Console — with high-fidelity Flutter UI, Firestore real-time listeners, Geofencing, and push notifications.
- Reduced order processing time by 45% through real-time inventory sync and Google Maps API integration for live delivery tracking.

Tech Stack: Flutter, Dart, Firebase Firestore, Node.js, Express, Google Maps API

Splendour Park Labour Management System | Mobile App Developer |

- Developed an offline-first Flutter enterprise app for labour attendance tracking, wage disbursements, and Labour Commission compliance reporting for large-scale construction sites.
- Integrated biometric/facial recognition logs, automated PDF compliance document generation, and AWS S3 for secure document storage.

Tech Stack: Flutter, Dart, SQLite, Node.js, Express, AWS S3, PDF Generation

EDUCATION

Bachelor of Technology – Information Technology | VSB Engineering College | 2020 – 2024
